SEIF AYED

Full-Stack & AI Software Engineer | Esprit Student

Ariana Soghra, Tunisia • +216 52 527 914 • seif.ayed@esprit.tn • linkedin.com/in/seif-ayed-759970196

PROFESSIONAL SUMMARY

Final-year Software Engineering student (ESPRIT) and versatile Full-Stack & AI Developer. Experienced in designing robust web/mobile applications and microservices using Java, Spring Boot, React, Angular, Python, Django, and Node.js. Skilled in integrating Machine Learning, Large Language Models (LLMs), and RAG architectures to deliver innovative, data-driven software solutions.

TECHNICAL SKILLS & TECHNOLOGIES

Main Technologies:	Java, Spring Boot, React, Angular, Python, Django, Node.js, REST APIs, Microservices Architecture, MySQL, PostgreSQL, MongoDB, Machine Learning, LLMs, RAG, Git/GitHub.
Frameworks & Mobile:	Express.js, Symfony, JavaFX, Flutter, Mongoose.
DevOps & Tools:	Agile/Scrum, Docker, Postman, MongoDB Compass, Android Studio, Linux (Ubuntu), VS Code, IntelliJ IDEA.

KEY & RELEVANT PROJECTS

AI-Powered Internship and Academic Management Platform

Spring Boot, React, LLMs, RAG, Python

- Developed a web application integrating 8 AI-powered features, including a context-aware chatbot (RAG) providing precise guidance on student internship topics.
- Implemented AI CV analysis and automated matching with compatibility scoring between candidates' CVs and internship offers to optimize recruitment matching.

NutriAI – AI-Powered Nutrition Management Platform

Angular, Spring Boot, Python/Django, AI

- Built a web application with Angular and Spring Boot, integrating Python/Django-based AI services for personalized meal recommendations based on user profiles, activity levels, and nutritional goals.

Aletheia – Online Education & Certification Platform

Angular, Spring Boot, Microservices, MongoDB, ML

- Architected a microservices-based e-learning platform using Spring Boot and Angular, with secure authentication and DevOps automated workflows.
- Integrated a Machine Learning recommendation engine suggesting personalized courses and professional certifications.

Care Connect & Parkini Applications

Symfony, JavaFX, Flutter

Developed full-stack desktop and mobile applications for Hospital Management (patient records, appointments) and Parking Management (real-time tracking, payment integration).

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern — WIMOBI

July 2026 – August 2026

Contributed to the NutriAI platform development using Angular and Spring Boot. Implemented REST APIs, user authentication, database models, and integrated AI recommendation endpoints.

Full-Stack Developer Intern — ITGate Group

July 2025 – August 2025

Developed a Job Management Platform using Angular, Spring Boot, and MVC architecture. Designed secure RESTful APIs, handled database optimization, and conducted application testing.

Full-Stack Developer Intern — WIMOBI

January 2023 – June 2023

Designed wireframes and full-stack modules for a Medical Office Management web application using React, Node.js, and Java, integrating third-party APIs and database systems.

EDUCATION

Engineering Cycle in Software Engineering
ESPRIT - Private School of Engineering and Technology
2023 – 2027 (Final Year)

Bachelor's Degree in Computer Science (Software Eng.)
Higher Institute of Computer Science and Mathematics, Monastir
2019 – 2023
